

SAURABH KUSHWAHA

Full Stack Engineer

📞 7393084880 ✉ kushwahasaaurabh219@gmail.com [🌐 linkedin.com/in/saurbhkushwaha](https://www.linkedin.com/in/saurbhkushwaha) [🐙 github.com/Saurabh-kushwaha](https://github.com/Saurabh-kushwaha)

Professional Summary

Full Stack Engineer with 4 years of experience building scalable SaaS and enterprise applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in frontend architecture, REST API development, authentication systems, and AI-powered product development. Skilled in building high-performance, user-centric applications from concept to production.

Technical Skills

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

UI & Styling: Material UI (MUI), Tailwind CSS, Responsive Design

State Management: Redux Toolkit, React Query

Backend & APIs: Node.js, Express.js, JWT Authentication, REST API Integration & Development, MongoDB

Performance Optimization: Lazy Loading, Code Splitting, Memoization, Caching, Core Web Vitals, Lighthouse

Tools & Testing: Git, GitHub, Bitbucket, Jira, Figma, CI/CD, Jest, React Testing Library

Experience

Independent AI & Full Stack Developer

March 2026 – Present

Self-Employed / Product Development

Remote

- Building AI-powered SaaS applications using Next.js, TypeScript, Node.js, Express.js, MongoDB, and Gemini API
- Developing scalable full-stack products with authentication systems, analytics dashboards, REST APIs, and responsive frontend architecture
- Architected and developed ReviewQR AI, a smart QR-based customer review platform for restaurants and local businesses
- Implemented AI-assisted review generation, multilingual workflows, sentiment analysis, and business performance tracking features
- Exploring modern AI integrations, prompt engineering workflows, and production-ready application architecture
- Continuously improving system design, backend development, and performance optimization skills through hands-on product development

Nvest Solution

Jul 2023 – March 2026

Frontend Developer

Mumbai, India

- Developed and maintained enterprise-level frontend applications for banking clients (SBI, PNB) handling high-volume financial data
- Built reusable, scalable UI components integrated with REST APIs, reducing development effort by 30%
- Optimized application performance using lazy loading and code splitting, improving load time by 25%
- Collaborated with cross-functional teams to design scalable frontend architecture and efficient data flow

Trueloader

Aug 2022 – Jul 2023

Frontend Developer

Pennsylvania, United States (Remote)

- Independently developed and scaled the frontend of a data integration and analytics platform from Figma designs to production
- Built dynamic and responsive UI using React.js, Tailwind CSS, and Redux, ensuring seamless user experience
- Integrated complex REST APIs to handle large-scale data ingestion, transformation, and visualization workflows
- Managed end-to-end frontend architecture, including state management, API handling, and performance optimization
- Collaborated closely with backend teams to design efficient data flows and ensure smooth API communication

Applore Technologies

Jun 2022 – Aug 2022

Full-stack Developer

Noida, Uttar Pradesh

- Developed a full-stack e-commerce platform (Choice Monk) focused on healthy products using the MERN stack (MongoDB, Express.js, React.js, Node.js)
- Built responsive and reusable frontend components using React.js and Material UI
- Designed and developed REST APIs for product management, user authentication, and order processing
- Integrated backend services with frontend for seamless data flow and real-time updates

Projects

ReviewQR AI — AI-Powered SaaS Platform	May 2026
• Architected and developed a full-stack AI-powered SaaS platform that helps restaurants and local businesses increase Google reviews through QR-based smart feedback workflows. • Developed AI-assisted review generation using Gemini API with multilingual support, sentiment analysis, and smart response generation. • Built scalable frontend architecture with Next.js App Router, TypeScript, Tailwind CSS, and reusable component-based design system. • Implemented analytics dashboards for scan tracking, review conversion metrics, customer insights, and business performance monitoring.	

Education

Mangalayatan University <i>Master of Computer Applications (MCA)</i>	Jul 2024 – <i>Aligarh, Uttar Pradesh</i>
Masai School <i>Full Stack Development</i>	Apr. 2021 – May 2022 <i>Bangalore, India</i>
Chhatrapati Shahu Ji Maharaj University <i>Bachelor of Science</i>	Jul. 2018 – May 2021 <i>Kanpur, Uttar Pradesh</i>
